

AUSTRALIAN  
*Quarter Horse*  
ASSOCIATION

*Ricky Glen*

I am a single dad with two sons, Lachlan and James and I manage a great stallion in Peptos Stylish Oak.

The world is sitting up and seeing what Australia is producing, both with riders and horses winning and placing at major events in the USA and one must also add that these riders are the product of the youth system that we must continue to support to nurture for riders and trainers of tomorrow.

We must also remember our past members and horses and ensure that their achievements are recorded and recognised so they are long remembered.

The Board must also work with our members and should always take on board their comments, times are tough out there and fees and costs must be kept in check so our members can continue to show and breed.

The AQHA is in a great position and will continue to grow and grow and with good management will continue to do so.
